About us

About Us

Hey, if you are

- Frustrated and can't find peace
- In a stressful situation and can't find anyone to talk with
- Feeling depressed due to any reason and want the solution without losing privacy
- Not feeling okay and don't even know what happens to you
- Having any issues with your mental health and you don't have facility of psychiatrists or therapists nearby your location
- Not able to afford expensive mental health care

Then relax, you are at the right place.

We are here to solve your problems by providing you well-educated and licensed doctors, therapists, and counselors with an affordable price and in the most interactive and efficient way.

Who Are We?

We are the solution to your problem. We are the people who sincerely work to enhance the lives of the people who are suffering from stress, anxiety, and depression. We are providing the most effective and efficient way for getting a connection with highly qualified doctors, counselors, and therapists for the people who cannot afford expensive health care functionalities.

Our Vision

The internal peace of each and every individual is our first priority. The world should become so peaceful that no one ever needs us.

Our Mission

We want to live our dream that no one is having any hesitation to talk about their mental health issues because whenever anyone has such hesitation, then he/she will say: "no need to worry when Stay Free is with us."

“Thinking about our users before thinking about us.”

“Motivation comes from within and we take care about that

FAQ

search option

The screenshot shows a website's FAQ section. At the top, there is a purple navigation bar with links: Home, About Us, FAQs (which is bolded), Pricing, Experts, and Sign Up/Login. Below the navigation bar, the word "FAQs" is centered in a large, bold, black font. Underneath it is a search bar with a magnifying glass icon and the placeholder text "Search...". The main content area has a light gray background with a subtle watercolor texture. It lists several frequently asked questions in a standard black font. The questions are:

- Q: What is online counseling?**
A: Online counseling is a type of mental health treatment that occurs via the internet and is often referred to as teletherapy or e-counseling. It enables people to communicate with certified therapists and counselors from the comfort of their homes or any place with an internet connection via video conferencing.
- Q: How effective is online therapy compared to in-person therapy?**
- Q: How does virtual treatment operate?**
- Q: How secure is my personal information?**
- Q: Which therapists are on your platform?**
- Q: What kinds of problems may I address in therapy?**
- Q: How do I begin an online counseling session?**
- Q: How frequently and how long are treatment sessions?**
- Q: Is online therapy appropriate for people of all ages?**

This screenshot shows the same website's FAQ page after a search has been performed. The search bar now contains the word "problem". The results are displayed below the search bar. The first result is the question "What kinds of problems may I address in therapy?", followed by its detailed answer. The other questions listed on the page remain the same as in the first screenshot.
